

QC Inspector – Aerospace Parts

We are seeking an experienced person to inspect precision machined parts. These are 4 & 5 axis CNC machined parts with tight tolerances.

The position involves performing incoming/receiving, in-process & final inspection. The products will range from raw material, to finished machined assemblies for the aerospace industry.

Minimum Requirements:

- Must be a United States citizen.
- High School diploma or equivalent education.
- The ability to use basic measurement equipment, i.e. calipers, micrometers, indicators and other equipment as necessary.
- Visually inspect parts for nicks, dings, raised material, burrs, etc.
- Inspect for completeness of assembly (pins, studs, Lee plugs, Helicoils, etc.)
- The ability to read and understand blueprints.
- Understand Geometric Dimensioning & Tolerancing.
- An understanding of basic mathematics and use of a calculator.
- Basic computer skills (Microsoft Office)
- 1-2 years previous experience
- Must be able to pass an eye exam requiring vision correctable to 20/20 in at least one eye and must not be color blind.
- Have the ability to communicate effectively in English.
- Good manual dexterity.
- Ability to lift 30 lbs.

-Be familiar with ISO9001 & AS9100 compliance.

-Optical comparator & CMM experience a plus.

This is a great opportunity with a well-established company that is growing!
